

ADD YOUR BEST PRACTICE EXAMPLE TO THE DATA BASE AND LET OTHERS KNOW ABOUT YOU!

We would like to draw your attention to the data base that has been elaborated in the framework of the project "Learning Lab for Integration" financed under Lifelong learning Grundtvig programme. In the database you can get acquainted with the good practice examples on how people with disabilities are returning to the labour market, how they are integrating into society, learning and acquiring new skills. Everyone is invited not only to familiarise themselves with other good examples but also to add examples from their own experiences. **The database is available on the web site www.futureforyou.eu.**

The database currently compiles several examples from Latvia, United Kingdom and Spain. But we don't want to stop on this. There are many more great ideas, projects, organisations all around Europe. We and growing number of regular webpage visitors would like to find out about them and share experience in helping people with disabilities!

If your organisation has project or you know a project or other organisation that has been effective in facilitating integration of people with disabilities in education, employment and social life, we urge you to add this best practice example to the data base! Just follow the instructions on webpage and tell us and others about your project or organisation!

Use this unique opportunity to promote your ideas, project or organisation to professionals living and working across whole Europe with no costs at all!

The aim of the Grundtvig project „Learning Lab for Integration” is to gather best practice examples around Europe facilitating and motivating people with disabilities to integrate into education processes, employment and social life.

This project has been funded with support from the European Commission. This material reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

EU Lifelong Learning Grundtvig programme project "Learning Lab for Integration" is coordinated by "Comperio" Ltd (Latvia) in collaboration with the Association of people with disabilities and their friends "Apeirons" (Latvia), Point Europa (UK), Entitate Espiral de Serveis (Spain). For more information about the project please visit the home page www.futureforyou.eu.
