

## The Project

# LEARNING LAB FOR INTEGRATION

In the framework of the Lifelong Learning Programme Grundtvig sub-programme, Comperio Ltd (Latvia) in close collaboration with Association of people with disabilities and their friends Apeirons (Latvia), Point Europa Ltd (UK) and Espiral Entitat de Serveis (Spain) elaborated the project Learning Lab for Integration.

General aim of the project is to contribute the integration of people with different disabilities into society, education activities and labour market.

To achieve it, following results have been reached:

1. research on the existing situation in the partner countries related to the integration of the people with disabilities into education process and labour market;
2. increased level of the skills and knowledge of professionals that work with people with disabilities by organizing study visits and training;
3. dissemination activities in the society to encourage integration of people with disabilities;
4. movie on best practice examples of people with disabilities integration in social life activities;
5. international **data base**, where **everyone can find examples of best practice and share their own experience**, how people with disabilities are being integrated into the labour market, society and educational activities around the world.
